

General Knowledge
Grade -3
2nd Term- Student Note - 1
Discovering Dinosaurs

Dear Parent,

- Please guide your child to write the students' notes by following the guidelines given below.
- Before writing the students' notes, watch the General Knowledge- **Discovering Dinosaurs** lesson on Vidura YouTube by opening this link.

<https://www.youtube.com/watch?v=hDLRF30DChk>

- Use the General Knowledge writing book and write the lesson.
 - * Start with the date and the topic "**Discovering Dinosaurs**"
 - * Underline the topic with a colour pencil.
-

Discovering Dinosaurs

- ❖ Dinosaurs are large animals that have been living in the world for millions of years ago.
- ❖ People who study dinosaurs are called Paleontologists.
- ❖ Many dinosaurs ate plants. They are called "**herbivorous**".
- ❖ Dreadnoughtus was the biggest dinosaur that lived on earth. It was a plant-eater.
- ❖ Meat-eating dinosaurs had strong legs to help them run well.
- ❖ Who were eating meat are called "**Carnivorous**".
- ❖ The smallest dinosaur was called Mussaurus.
- ❖ Female dinosaurs laid two or more eggs at a time.

Activity

- List down the names of plant-eating dinosaurs and meat-eating dinosaurs.
