

## Mathematics - Grade – 5

### 2<sup>nd</sup> Term -Student Note- 2

*Dear children, please copy down the given note in your writing book and do the relevant exercises.*

## Decimals

No of equal parts = 10

No of coloured parts = 1

Coloured parts as a fraction =  $\frac{1}{10}$

$\frac{1}{10} = 0.1$  a decimal (one ten<sup>th</sup>) \ ten<sup>th</sup> part is a decimal

0.1	0.1	0.1	0.1	0.1	0.1	0.1	0.1	0.1	0.1
-----	-----	-----	-----	-----	-----	-----	-----	-----	-----

Ten decimals make one whole

$$0.1 \times 10 = 1$$

Let's read decimals,

0.1  Decimal point Zero point one

0.2 = Zero point two

0.3 = Zero point three

0.8 =

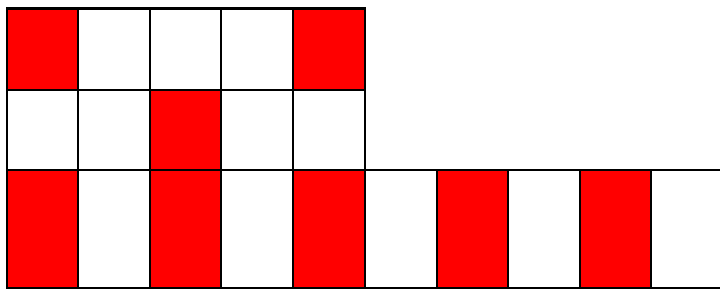

0.6 =

Let's write decimals,

Zero point seven =

Zero point nine =

*(Do the ex 8.1 Q- 1 and 2 only )*

Write the shaded part as a decimal.

*Do exercise 2 in your textbook.*
